THE CONDITION OF CHRISTENDOM. For an able series of views of the progress each of their Single Number Lotteries for May, of Christianity in Europe, from the Evangelical stand-point, the most thorough and suggestive work is that on "The R ligious Cordition of Christendom," by Dr. Stenne, of tion of a series of papers presented by the ablest man of the reformed churches on the continent of Europe, at the Paris Evangelical

That Chri-tianity, as a whole, is gaining immensely and rapidly upon the heathen world, no one will doubt who has attended any of the missionary meetings, or even read the newspapers. In fact, while Missionary Societies are differing among themselves, and splitting to pieces on questions as to the best way of carrying on missionary operations, the beathen are casting away their gods, and seeking Christian in-truction, with a rapidity unheard of since Creation, and the different denominations of Christians are getting to act together better. Commerce is bringing the nations of the earth into daily contact. This leads Christian nations and heathen to measure strength, and it is found 5,485 Prizes amounting to\$320,000 that the others have not. They observe more closely the social laws of all religion, such as the largest nation on earth, is found to be the very weakest, because all its officials lie, and tin tubes, and placed in one wheel. exaggerate, and cheat, and report nothing truly to their government. The people see the force and power of Christian nations. and are not far wrong in the gross and general idea that if they could learn Christianity they would become strong too. Hence it is that the rebels in China have circulated Christian books and doctrines, mutilated, indeed, but not more corrupted than various types of Christianity, as preached among

ity sowed broadcast by their own citizens. So in Burmah, at this moment, the present king (his brother having just been beatcruelly imprisoned and brought to death's cording to the above scheme. door. The king has dismissed his priests and taken the missionaries into favor. The quelling of the rebellion is India is a deathblow to heathenism among two hundred millions more. Even the sword of Havelock, no less than the "Pealm-singing" for which he so long and nobly endured ridicule, have sowed the seeds of Christianity among Hindoos whose faith had reached its d tage before the babe of Bethlehem lay crade died in the manger, but which has held together simply for want of a superior force to overthrow it. Africa, too, is being penetrated to the core-penetrated by Christian missionaries, like our own countrymen Bowen in Yoribah, as Dr. Livingstone travelled it from

While the circumference of nominal Christianity is thus rapidly enlarging, the great question is, how fares it at the centre! There has been a feeling in past years that there was a declining interest in evangelical Christianity at home, just in proportion to its extension abroad. The immense impetus, however, that has been given to personal re-ligion within the last few months, through the Young Men's Christian Associations and similar societies, unequalled in power by any known previous movement of the Church, shows that this is not the case, but the contrary. Even in a pecuniary point of view, notwithstanding the enormous pressure of the times, it was estimated, in a recent numtotal of contributions to the benevolent societies of the day, amounting usually to over two millions of dollars, was eighty thousand dollars over that this year, and had only fallen about twenty thousand dollars below that of the most prosperous of years, i. e., 1857.

THE WEATHER.

A weather prophet, writing to an agricultural paper, says: "When you wish to know what the weather is to be, go out and select the smallest cloud you see; keep your eye upon it, and if it decreases and disappears, it shows a state of the air which will be sure to be followed by fine weather; but, if it inc cases in size, take your great coat with you, if you are going from home, for falling weather will be not far off. The reason is this:--When the air is becoming charged with electricity, you will see every cloud attracting all lesser once towards it, until it gathers into a shower; and, on the contrary, when the fluid is passing off or diffusing itself, then a large cloud will be seen breaking to pieces and dis-

A Cupard steamer lately arrived at Boston at a late hour on Saturday night, and it was proposed, as usual in such cases, to leave the baggage unopened until daylight. The English passengers, however, so unanimously and earnestly opposed such a procedure that the rule was broken over, and the passengers | to 13 blanks. at once landed. The cause of their excitement has since been satisfactorily explained. A young Bestonian on board, himself in a hurry to get on shore, informed these intelligent Britons that the Puritanical laws of the Commonwealth would compel them, in case they waited until morning, to remain on board through the whole of Sunday, as the city gates were always close t for twenty-four heurs on that day!

THE MARSHALL HOUSE.—J. R. GRIGS-BY, Proprietor .- The MARSHALL HOUSE is tavorably known to the travelling A Certificate of Package of 26 Wnoles, \$149 50 community, and I most respectfully announce to my friends, and the public generally, that I am prepared for the reception of visitors.
